INDEX TO SIGNAL

Volume 49 September 1994 through August 1995

TITLE

A

1. Acoustic Detection Traces Bullet, Shell Trajectories ..... *Nov. 59*
2. Advanced Computer Imaging Enables Manifold Applications ..... *Dec. 38*
3. Advanced Infrared Detectors Transition to Commercial Uses ..... *Jan. 51*
4. Advanced Processors Chip Away Defense Electronics Bottlenecks..... *Nov. 63*
5. Advanced Warfare Challenges Loom as Technology Spreads ..... *July 49*
6. Agency Funding Provides Support For Manufacturing Pilot Programs ..... *June 59*
7. Agile, Robust Radio Offers Speed and Reliability ..... *Feb. 53*
8. Air Force Fosters Airborne Warning Receiver Research ..... *July 62*
9. Air Force Planners Exploit Commercial Space Imagery ..... *June 15*
10. Air Navigation's Future Rests on Satellites, Microprocessor ..... *Feb. 14*
11. Airborne Radar Takes Off Again With New Airframe ..... *Dec. 57*
12. Aircraft System Designs Driven by Pilots, Versatility ..... *Sept. 29*
13. All-Digital Defense Network Embeds Information Sharing ..... *Jan. 29*
14. An Infusion of Technology Gives HF Radio a New Life ..... *Nov. 37*
15. Anticipation and Excitement Surround Network Projects ..... *April 69*
16. Army Charges Toward Future Seizing Technology's Strength ..... *May 79*
17. Army Shifts Modernization Effort from Embedded to Upgraded Approach ..... *Nov. 43*
18. Automation's Advances Cut Across Federal Open Systems ..... *Oct. 66*
19. Avoiding Information Overload Assists Commanders' Battlefield Performance..... *Aug. 35*

B

20. Battlefield Technologies Muster in Synthetic Arenas ..... *July 15*
21. Battlefield Work Stations Provide Awesome Power ..... *Nov. 25*
22. Bright Bytes Offer Data Archiving Edge ..... *June 34*
23. British Radars Offer Extensive Coverage ..... *March 57*

C

24. Capital Costs May Pose Barrier to Chip Industry ..... *May 43*
25. Chinese Destroyers Incorporate Western Technologies, Designs ..... *March 53*
26. Chinese Frigates Evolve Into Capable Competitors ..... *Dec. 23*
27. Chinese Submarines Quietly Amass Strength in Pacific ..... *June 75*
28. Command and Control Basics Enhance Explosion of Information Technology ..... *March 15*
29. Command and Control Defines Functions of European Forces ..... *Nov. 49*
30. Commercial Processors Drive New Marine Air Control System ..... *March 35*
31. Commercial Products' Potential Must Agree with Defense Needs ..... *May 49*
32. Communications Support Education and Training ..... *Nov. 77*
33. Communications System Aims To Enhance Navy Interoperability ..... *Jan. 47*
34. Communicators Broaden Band of Military, Civilian Systems ..... *Sept. 17*
35. Commuter Aircraft Gain Phased Array Early Warning Capability ..... *Dec. 53*
36. Computer Eye View Enables Critical Information Delivery ..... *Dec. 59*
37. Computing Advances Drive Industrial, Scientific March ..... *Feb. 21*
38. Continental Change Opens Doors That Beckon Decisive Policies..... *Sept. 15*
39. Critical Link Consolidates Army's Tactical Networks ..... *March 24*
40. Critical Security Dominates Information Warfare Moves ..... *March 71*
41. Cyberspace Meets Outer Space in Continental Simulation Push ..... *Sept. 59*

D

42. Defense Procurement Commands Foothold in Cyberspace..... *Jan. 23*
43. Delivering More, Faster and Farther, Drives Information Systems Opportunities ..... *Aug. 50*
44. Direct Broadcast Satellites Offer Added Support To Tactical Users..... *Aug. 30*
45. Direct Satellite Telephony Offers Terrestrial Linkage ..... *April 26*

E

46. Electrifying Scenery Emerges From Semiconductor Technology ..... *June 33*
47. Electron Boosts Link Sensors, Command, Weapons Systems..... *Sept. 35*
48. Electronic Combat Techniques Provide Information War Edge ..... *July 33*
49. Electronic Systems Center Meets Operator's Demands ..... *March 29*
50. Electronics Program Aims at Incoming Fuzed Rounds ..... *May 91*
51. Emergency Communication Accesses Public Networks ..... *April 61*
52. Enclosure Makers Cautiously Approach Market Versatility ..... *Oct. 43*
53. Error Correction Enhances Communications Integrity..... *Nov. 69*

41. Cyberspace Meets Outer Space in Continental Simulation Push ..... *Sept. 59*

D

42. Defense Procurement Commands Foothold in Cyberspace..... *Jan. 23*
43. Delivering More, Faster and Farther, Drives Information Systems Opportunities ..... *Aug. 50*
44. Direct Broadcast Satellites Offer Added Support To Tactical Users..... *Aug. 30*
45. Direct Satellite Telephony Offers Terrestrial Linkage ..... *April 26*

E

46. Electrifying Scenery Emerges From Semiconductor Technology ..... *June 33*
47. Electron Boosts Link Sensors, Command, Weapons Systems..... *Sept. 35*
48. Electronic Combat Techniques Provide Information War Edge ..... *July 33*
49. Electronic Systems Center Meets Operator's Demands ..... *March 29*
50. Electronics Program Aims at Incoming Fuzed Rounds ..... *May 91*
51. Emergency Communication Accesses Public Networks ..... *April 61*
52. Enclosure Makers Cautiously Approach Market Versatility ..... *Oct. 43*
53. Error Correction Enhances Communications Integrity..... *Nov. 69*

54. Europe Sharpens Focus on Space Exploration ..... *Aug. 27*
55. European Military, Industry Urged to Embrace Peacekeeping Roles ..... *Feb. 59*
56. Evolving Security Technology Offers Multilevel User Privacy ..... *Oct. 47*
57. Experts Work to Increase Ada's Market Coverage ..... *Nov. 74*

F

58. Facing Turbulence, Intelligence Community Revamps Internally ..... *April 48*
59. Federal Electronic Commerce Offers Acquisition Holy Grail ..... *Jan. 19*
60. Ferreting Out Signals Closes Electronic Battlefield Breaches ..... *July 53*
61. Fleet Data Rate Demands Drive Fiber Optics at Sea ..... *Feb. 49*
62. French, German Scientists Aim for Improved Munitions ..... *Sept. 45*

G

63. Genetic Algorithms Stimulate Unmanned Vehicle Missions ..... *Dec. 27*
64. German Communications Flourish Through Structural Uncertainty ..... *April 44*
65. Global Mobility Demands Knowledge-Era Savvy ..... *Aug. 13*
66. Global Telecommunications Need Fans Strategic Services ..... *April 21*
67. Glowing Exhaust Plumes Tip Off Missile Targets ..... *July 45*
68. Government Incentives Encourage Flexibility, Global Competitiveness ..... *Aug. 43*
69. Growth in Data Speed Creates Opportunities and Bottlenecks ..... *Sept. 67*

H

70. Hardware Companies Switch, Compete for Services Contracts ..... *Feb. 39*
71. High Frequency Radio Enjoys Renaissance ..... *March 65*
72. Higher-Frequency Chips Spawn Increasing Uses ..... *Feb. 35*

I

73. Imaging Focus Changes From Products to System Solutions ..... *June 45*
74. Imaging Power Drives Myriad Information Technology Tasks ..... *June 13*
75. Imaging, Data Base Advances Pluck Government Programs ..... *Dec. 35*
76. Information Researchers Prospect New Domains, Seek Far Horizons ..... *Sept. 41*
77. Information Science, Technology is Strategic Investment Priority ..... *May 17*
78. Information Superiority Dashes Thorny Power Protection Issues ..... *Nov. 13*
79. Information Technologies Serve as Hub for Progress ..... *Aug. 61*
80. Information Warfare Calculus Mandates Protective Actions ..... *Oct. 15*
81. Initiatives Seek to Modernize Navy Logistics Infrastructure ..... *July 64*
82. Innovative Firms Embrace New Manufacturing Technologies ..... *June 51*
83. Innovative High Frequency Radios Lead to User-Friendly Operations ..... *Nov. 40*
84. Intellectual Property Owners Require Just Compensation ..... *Oct. 17*
85. Intelligence Community Revamping Hinges on Targeting Decisions ..... *Feb. 45*
86. Intelligent Scene Monitoring Drives Security, Surveillance ..... *July 29*
87. Interactive Network's Allure Delivers Skyrocketing Power ..... *Aug. 15*

J

88. Japan Sails New Tack Toward Basic Research ..... *Dec. 15*
89. Joint Ground Station Offers Real-Time Tactical Ballistic Missile Warnings ..... *March 40*

K

L

90. Lab Magicians Spoof Optical Seekers, Sensor Systems ..... *July 41*
91. Laboratory Scientific Specialty Fosters Industrial Competition ..... *Feb. 26*
92. Let Loose the Doyens of Cyberspace ..... *April 13*
93. Limited Resources, National Interests Shape Global Personal Communications ..... *April 35*
94. Lithography Technology Advances Promise Innovative Chip Designs ..... *Feb. 29*
95. Los Alamos Code Supports Diesel Engine Design Tests ..... *Feb. 25*
96. Low Emissions Portable Computer Overcomes Electromagnetic Fields ..... *Sept. 63*
97. Low-Cost Imagery Processing Reaches Echelons Below Corps ..... *March 47*

M

98. Marines Add Knowledge-Based Warrior Demonstration Wrinkle ..... *Aug. 33*
99. Megabits, Megabytes Generate Megabucks ..... *May 57*
100. Microprocessors Threaten Supercomputing's Progress ..... *Feb. 12*
101. Microsatellite Tests Radars, Positioning, Data Transfer ..... *Aug. 23*
102. Military Information Systems Drive Army Command, Control ..... *March 19*
103. Military Planners Gird for Information Revolution ..... *May 71*
104. Military Semiconductor Makers Reassess Aims ..... *Aug. 44*
105. Military, Industry Debate Progress in Peacekeeping ..... *April 73*
106. Milstar Crosslinks Promise Tactical Space Switchboard ..... *Sept. 49*
107. More Demands, Changing Customer Base Define Market for Cases, Enclosures ..... *Oct. 39*
108. Multilevel Security Embraces Data Bases, Grants Flexibility ..... *Oct. 51*
109. Multimedia Products Respond to Evolving Crisis Management, Peacekeeping Needs ..... *March 62*
110. Myriad Imaging Applications Emerge From Microelectronics ..... *June 39*

N

111. Navy Commercial Satellite Use Spreads Sea-Based Multimedia ..... *Dec. 43*
112. Navy Picks Tactical Advanced Computer-4 Prime Contractor ..... *May 97*
113. Network Simulation, Optimization Tools Enhance Design, Planning Capabilities..... *July 21*
114. Neural Network Processing Abets Vehicle Monitoring ..... *Sept. 25*
115. New Concepts and Information Technology Shape Manufacturing ..... *June 55*
116. New Design Approach Creates Fast and Affordable Disk Array System ..... *Nov. 72*
117. New Lasers Advance for Manufacturing Applications ..... *Feb. 55*
118. New Opto-Electronic Devices Enhance Fiber Optic Links ..... *March 44*
119. New Rules, Customer Focus Awaken Security Innovation ..... *Oct. 33*

O

120. Once-Secret Technology Assists Cancer Detection ..... *June 66*
121. Open Architecture Empowers Agency-Industry Data Flow..... *April 66*
122. Opening Commercial Airwaves Generates Government Revenue ..... *Oct. 57*

P

123. Portable Radio Empowers Secure Satellite Linkage ..... *May 101*
124. Portable Satellite Links Propagate Among Users ..... *Nov. 33*
125. Potent Servers Integrate, Slake High-Bandwidth Business Thirst ..... *Aug. 20*
126. Powerful Technologies Surf Software and Services Wave ..... *June 21*
127. Private Branch Digital Networks Brace Financial Institutions ..... *April 43*
128. Proposed Networking Standards Merge Market Issues With Needs ..... *Dec. 63*

Q

R

129. Rapid Development Speeds Command System Delivery ..... *March 68*
130. Realistic Motion Simulators Stimulate Military Aviators ..... *July 17*
131. Risk Management Provides Vital Information Security ..... *Oct. 25*
132. Roles and Missions Debate Transcends Service Rivalries ..... *April 53*
133. Rush to Information-Based Warfare Gambles with National Security ..... *July 67*

S

134. Security Agency Sciences Stake Out Market Niches ..... *June 70*
135. Sensor Advances Spawn Weapon System Spinoffs ..... *Sept. 22*
136. Sensor Fusion Exploitation Braces War Fighting Forces ..... *Nov. 53*
137. Shape-Shifting Test Bed Explores Military Links ..... *April 57*
138. Slashing Chip Manufacturing Red Tape Invigorates Industry ..... *Aug. 39*
139. Smart Card's Appeal Hastens Jump into Mainstream ..... *Jan. 35*
140. Software Security Protects Work Station, Laptop Data ..... *Oct. 19*
141. Space-Based Telephone Service Nears Reality ..... *April 31*
142. Strong, Resilient Publishing Reflects Dynamic Association..... *Jan. 15*
143. Survival, Combat Effectiveness Rest on Sharing Information ..... *March 13*
144. Swifter, Diminutive Processors Pace Business Communications ..... *May 19*

T

145. Tactical C^4I System Blends, Fortifies Fleet Operations..... *Dec. 49*
146. Tactical Transmissions Ride Asynchronous Transfer Mode ..... *Nov. 15*
147. Taiwan's Electronics Industry Plots Technical Course Changes ..... *Dec. 19*
148. Tankers Fly Precision Navigation System ..... *June 30*
149. TechNet News ..... *May 107*
150. Technical and Economic Forces Prod Communications Markets ..... *April 39*
151. Telemedicine Communications Rescue Battlefield Casualties ..... *June 62*
152. Trans-Atlantic Pact Spurs Processing Power, Security ..... *Jan. 41*
153. Transforming Others Leads Company to Reinvent Itself ..... *May 33*

U

154. U.S. Forces Seek Affordable Solutions to Combat Identification Problems ..... *Sept. 71*
155. University Imaging Center Moves Beyond Simulation ..... *July 25*

V

156. Vigorous Campaign Turns Tables on Japan, Inc..... *Dec. 13*
157. Vigorous Research Powers Electronic Combat Thrusts ..... *July 57*
158. Virtual Prototype Advances Displace Engineering Mockups ..... *Oct. 61*
159. Virtual Reality Simulates Manufacturing Processes ..... *June 47*
160. Virtual Teleconferencing Spurs Factory, Medical Collaboration ..... *April 15*

W

161. Warriors Exploit Satellite Links, Expand Operational Capabilities ..... *Aug. 36*
162. World Wide Web Screams With High Bandwidth Connections ..... *Aug. 47*

SIGNAL MAGAZINE REPRINTS

SIGNAL Magazine will gladly provide quality reprints of its editorial features, customized to meet your needs.

The minimum order for four-color features is 100 copies; for black and white features, 300 copies.

For further information, contact:
Beverly T. Schaeffer
Managing Editor
4400 Fair Lakes Court
Fairfax, VA 22033
Telephone: (703) 631-6183
